

Third-party libraries

scikit-learn
library

TensorFlow
library

Foolbox
framework

PyTorch
library

...

Modules

Attacks

attack implementations

Datasets

data loaders, e.g. CelebA

Models

trained model under test

Use cases

task-specific logic

Wrapper

model converter, e.g. to Foolbox

Run-time

Tool setup

attacks, datasets, use cases

Run evaluation

attacks the trained model

Benchmark results

task-dependent output
